

Combi

↕ 6,5 – 16 mm

Mit unserer **Combi-Serie** bieten wir nicht nur hochwertige Profilsysteme an, sondern auch zusätzliche Möglichkeiten mit wichtigen Zubehörprodukten.

Durch die patentierte Verschiebenut im BASIS-Profil erhöht sich der Anwendungsbereich unterschiedlicher Belagsstärken von 6,5 – 16 mm. Die **Maxx-Varianten** ermöglichen weitere Einsatzgebiete, z.B. für die Berücksichtigung von Dehnungsfugen auch bei großflächiger Verlegung.

- ▶ Erweiterung auf höhere Belagsstärken durch Profil-Erhöhung „Lift-up-block“
- ▶ flache TOP-Profile, dadurch keine Stolperstelle

With our **Combi Series**, we not only offer high quality profile systems, but also important accessory products.

With our patented track system in the BASE-Profile, the application area for various flooring with thickness between 6,5 – 16 mm is increased. The **MAXX variety** further enables multiple application areas, for example, consideration of expansion joints on larger application areas.

- ▶ expansion to higher application areas due to “Lift-up Blocks”
- ▶ smooth TOP-Profile, therefore no tripping points

Par notre gamme **Combi**, nous ne nous contentons pas de proposer des systèmes de seuil haut de gamme, mais nous offrons en plus des possibilités supplémentaires d'importants produits accessoires.

Avec notre brevet rainure de glissage du seuil de base le domaine d'utilisation s'agrandit aux différentes épaisseurs des revêtements de 6,5 à 16 mm. Les **variantes MAXX** autorisent d'autres domaines d'utilisation, par exemple la prise en considération de joints de dilatation également sur de grandes surfaces de pose.

- ▶ élargissement d'utilisation à d'autres épaisseurs de revêtements de sol grâce au rehausseur pour seuil «Lift-up-block»
- ▶ seuil raccordement plat, évite ainsi les surfaces sur lesquelles on pourrait trébucher
